

Attending a Microsoft Teams Meeting of Pangaea Wealth

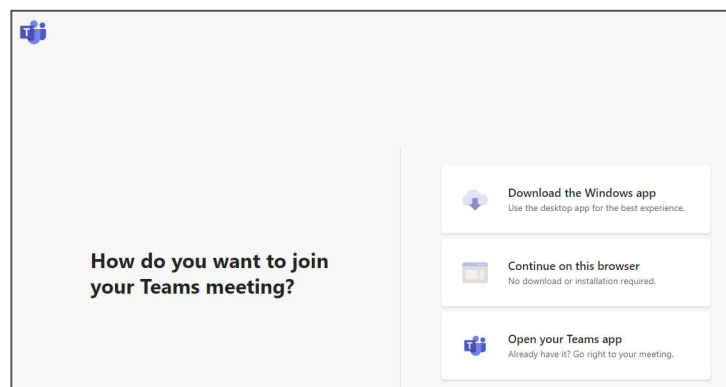

To participate in a Microsoft Teams online meeting please use a current version of the Google Chrome, Microsoft Edge or Firefox Internet browser **or** the Microsoft Teams app.

For Android / iOS devices you may download the app from your respective mobile App store. Look for Microsoft Teams with this icon:

For MacOS, please install from the Apple store. For Windows, Microsoft Teams may be downloaded from: <https://aka.ms/getteams>

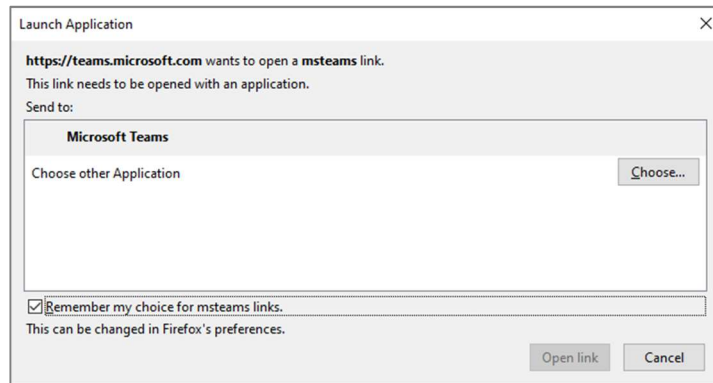

To join a meeting please click on the link provided in the invitation. This will present you with the following screen:

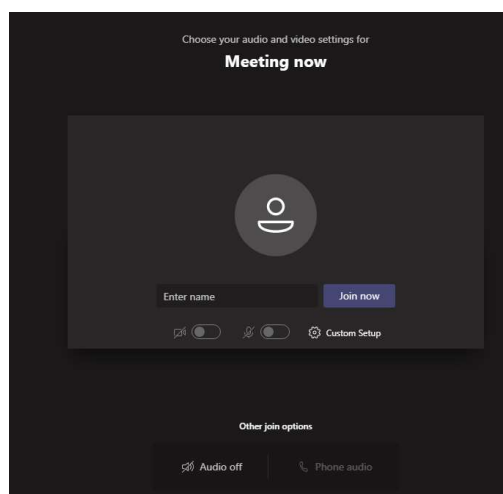

Please select the appropriate option (“Continue on this browser” or “Open your Teams app”).

If you have the Desktop app installed (on Windows 10 or MacOS), you may get a notification similar to below, asking for your consent to open the app. Once you confirm, Microsoft Teams will be started.

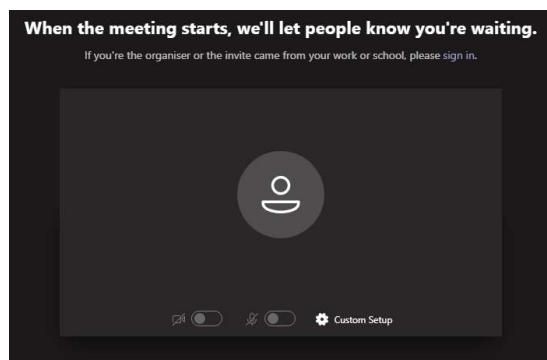

Now please enter your name and activate the Audio and optionally the Video option. You may mute the microphone or disable the camera also later on once the conversation window has opened.

Once below screen appears you are in the lobby waiting to be admitted to the call (your host will be notified).

Should you encounter difficulties please notify your Pangaea Wealth host via E-mail or DID.

You may reach us at **+65 6956 6511** or welcome@pangeaea-wealth.com.
